Armour and Company

NOT in the Retail Grocery Business

CERTAIN jobbing salesmen are circulating reports to the effect that Armour and Company control certain retail grocery stores or are planning to enter into the retail grocery business.

These reports are utterly and absolutely false. We desire to brand them as such once and for all. **Armour and Company do not control any retail grocery stores wholly or in part.** Neither have we any affiliation or connection in any way whatsoever with any owners of any retail grocery stores. **Armour and Company have no intention of engaging in the retail grocery business.**

Armour and Company distribute and sell a very limited number of food lines not directly produced from livestock. This is only the result of natural evolution. Our system of distribution and marketing must be maintained with the greatest possible efficiency. It is necessary, for reasons of economy, that it handle as great a volume at all seasons as possible.

This same distributive system enables us to carry staple foods to the people of this country with greater efficiency and at a cost that is low commensurate with the service. If our facilities are such that we have been able to serve the public more economically and efficiently than our competitors, then it is the retailer and consumer who benefit.

Armour and Company are more than packers. They are **food purveyors.** But, our participation in grocery lines represents **only 4.6 per cent** of our total business. Yet, wholesale grocery houses whose representatives spread these false reports are, themselves, engaged in numerous side-lines far removed from edible products. A recent bill of goods which we purchased from a wholesale grocer, contained more than forty items, **not one of which could be used for food—**except by an ostrich.

Reports of our engaging, or intending to engage, in the retail grocery business are, without exception, untrue. In the words of Mr. J. Ogden Armour, "We have no intention of adding the woes of retailing to the burdens of manufacturing and distributing."

Armour and Company will continue to regard all retailers as our co-workers. By means of our refrigerator cars and our branch houses it will be our effort to continue to provide them with the finest foods of all kinds that we can select and prepare—under the quality mark of the OVAL LABEL.
